

Please join African Parks and The Landbanking Group for a panel discussion on:

The Verifiable Nature Unit

African Parks is piloting an innovative outcomes-based funding mechanism for nature across 1.4 million hectares of key nature hotspots in Africa. The objective is to develop a currency for nature that enables reliable outcomes-based transactions at scale and turn nature conservation and restoration into a formal and competitive economic activity for all nature stewards.

Join us for a panel discussion on the different use cases of the VNU for the philanthropic, corporate and public sectors as we jointly engage to mobilize funds towards achieving the 30x30 and closing the biodiversity funding gap.

Sunday, October 27, 2024
10:30 – 11:30 am

COP 16
Cali, Valle Del Cauca, Colombia
Blue Zone,
NPI Pavilion
