

Position title: Camp Nomade - Camp Managers

Location: Zakouma National Park (ZNP), Chad

Starting date: asap

Duration: 2-year contract

Overview:

Camp Nomade is an exciting mobile camp in Zakouma National Park. Zakouma is managed by the non-profit organization African Parks, on a long-term basis, to protect its wildlife and uplift the surrounding local communities for the ecological, financial and social sustainability of the park. Under African Parks' management since 2010, Zakouma has become a world-renowned case study for successful elephant conservation in a challenging environment. In tourism circles, Zakouma is still a relatively unknown and isolated savanna park, but with its abundant wildlife and unique Saharan nomadic cultures, leading private guides are convinced of its potential for exclusive, high-end tourism and are jointly developing this product with African Parks. Safari tourism in Chad is in its infancy, and we're committed to helping the Chadian people discover the potential of their incredible natural heritage through this niche tourism development. Camp Nomade is a high-end mobile safari camp designed to capture the romance of the nomadic culture that is an integral part of Chadian/Sahelian culture.

The camp was opened in 2015 to leading tourism ambassadors and to the top private safari guides in Africa. The camp received great feedback and has proved very popular being fully booked in advance. The camp is primarily used to entertain African Parks existing or potential donors as well as select private guides and their clients. The season is relatively short, December – April. Before this the park is flooded and after this it's too hot for tourists. The camp can host up to 8 persons with their private guide on a 7-night fixed departure rotation. It is a truly authentic and intimate safari experience. The tented camp is light enough to move through-out the season as the game congregates around the rapidly drying pans. Fly camping is also offered for guests throughout their stay so that they can experience a different location and mix up their 7-night itinerary.

Role and Responsibilities:

The role and responsibilities are wide and varying due to the location and environment. They include but are not limited to the following:

1. Camp Management

- Overall responsibility for the running of the camp to a high standard of service
- Delivery of a world class tourism product synonymous with African Parks

Summary

This is a unique opportunity to be part of the leading conservation organization in Africa. Camp Nomade is a flag ship product of African Parks which allows the organization to directly engage with donors and guests. The aim is that we can drive much needed revenue for the park operations and ultimately significant funding can be raised to help drive conservation at scale in Africa.
